

Technology Development – Software Developer - Toronto

Office Location: Etobicoke

The Company:

We are a Business Process Automation company that is expanding our Managed Services Group to provide project and operational service to our enterprise-class customers. Our Customers are varied within several sectors of industry, and therefore provides a unique opportunity for exposure on how different industries work and provides unique project experiences.

Our mission is to help organizations automate critical business processes, exchange information securely, and eliminate the inefficiencies and errors associated with manual and labor-intensive processes.

The Opportunity:

Process Fusion Inc. is seeking a Software Developer to join us as a permanent employee. Reporting to the Director, Product Engineering, this is a Toronto-based role working primarily on existing software and products. You will be working with a small team of awesome peers working towards a common goal, using newer technologies, or modifying existing products to provide solutions to customers.

You are an exceptional Analyst-Programmer who would love to bring your enthusiasm to create, implement and finalize features of our existing software. You have well rounded development skills and will work in collaboration with other internal staff and/or customers in order to understand and solve issues related to the product and different environments. For this roll we are open to all levels of experience, however we are looking for a great fit and desire to program, troubleshoot and bring fresh ideas into the team.

Position Responsibilities:

- Good understanding of computer systems and networking protocols
- Must have working knowledge of REST API, .NET technologies
- Strong experience with C#
- Proficient in the Microsoft Visual Studio IDE and C
- Experience in multi-threaded C/C++ development.
- Knowledgeable of frontend (Angular 2+, Bootstrap) frameworks

Minimum Requirements:

- University/College degree or equivalent experience in a relevant discipline; or
- You have at least 3 years' experience in a similar role
- Strong problem solving and debugging skills
- Experience programming in virtualized environments (VMWare, RDS, XenApp)
- Experience with SQL and relational databases
- Experience with Microsoft Azure Cloud technologies and development
- Mobile development experience (Android, iOS)
- Familiarity with push notifications, APIs and cloud messaging
- Experience programming in virtualized environments (VMWare, RDS, XenApp)

- Experience with SQL and relational databases
- Experience with Microsoft Azure Cloud technologies and development
- Mobile development experience (Android, iOS)
- Familiarity with push notifications, APIs and cloud messaging
- Experience with continuous integration

Soft Skills:

- Ability to manage your time and projects effectively
- Eagerness to learn
- Passionate about technology
- “Think outside the box” mentality
- Good written and spoken English
- Self-motivated

Benefits:

- Competitive base salary plus bonus based on results.
- Full benefit coverage starting after 3 months, including life, health, and dental.
- RRSP with company participation
- Tuition reimbursement

Directions to Apply:
